

# Nuventive Improve

Creating a culture of continuous improvement

**Informed by years of experience in higher education, Nuventive Improve is a flexible solution that supports institutions in creating a culture of continuous improvement. How does it work? We help you bring together/manage your information and resources to become more organized and aligned, enhancing strategic planning capabilities, refining assessment of academic and administrative outcomes, and much more.**

#### **Makes Data-informed Planning and Outcomes Assessment Simple**

Nuventive Improve planning and outcomes assessment software provides a flexible framework to help your academic community organize, align, document, report, and take effective actions for improvement. Our system supports your team's efforts in data-informed strategic planning, program review, accreditation, and managing academic and administrative outcomes.

#### **Promotes Collaboration and Participation**

Nuventive Improve's intuitive web-based interface promotes engagement, inviting faculty and staff participation in planning and assessment. Collecting data and findings becomes more manageable—even when working with reluctant or infrequent contributors. You can even archive discussions to understand how decisions and outcomes were reached, and apply that knowledge to future goals and opportunities.

#### **Supports Academic and Non-Academic Outcomes**

Our solution doesn't lock you into rigid measurement systems or workflows. Instead, many institutional processes benefit from data-informed change—from academic outcomes to operational performance improvements to implementing green standards.

## **A Solution Built for You**

#### **Helps Achieve Alignment**

We make it simple for you to measure and summarize achievement from multiple programs/departments by linking data to your institution's strategic objectives.

#### **Offers Flexible Structure and Naming Conventions**

No need to learn a new language. Use your existing processes and the terminology of your assessment culture in all areas of your institution.

#### **Documents Continuous Improvement**

Get a clear picture of progress through easily accessible evidence of improvement, including outcomes and both quantitative and qualitative documentation.

### **Nuventive Improve Benefits**

- + Makes better use of data in strategic planning, assessment, and program review
- + Establishes planning as a living process
- + Easily documents your action plans and ongoing improvement
- + Saves time and resources
- + Improves faculty and staff engagement
- + Extends your system beyond the traditional uses of assessment software

### Provides Real-Time Reporting

Know what's happening now with up-to-date evidence of achievement. Nuventive Improve offers more than 30 standard reports, plus a powerful ad hoc reporting tool.

### Includes Curriculum Mapping

Link your curricula to desired learning outcomes with just a few clicks.

### Stores Data for Reference

Keep a permanent copy of the data or document that informed a particular decision. With that information, you will be able to better understand rationale and the related actions.

## Nuventive Improve Analytics

Nuventive Improve Analytics allows customers using Nuventive Improve to highlight information related to specific academic units and courses. Working with Microsoft's Power BI reporting tool, Nuventive makes it easy to create streamlined dashboards and generate standard reports that help with monitoring assessment, planning, and program review.

### Focuses on Personalized Planning

Our initial planning phase articulates the project's scope, timeline, and participants. Nuventive consultants will collect and review necessary information and tailor the project to your specific goals. We also help you set up Microsoft Power BI accounts within your existing Office 365 environment.

### Organizes to Meet Your Needs

The Nuventive team will work closely with you to customize and configure reports for the goals established during the initial planning phase. We're committed to making sure you have the reports and terminology that are right for your academic community.

### Includes Training

Our team will review the report structure with you and demonstrate how to best use the system for your needs. We'll show you how to create your own reports and how you can integrate the reports into Nuventive Perform. In addition, we will walk you through the basic features of Power BI.

### Supports You Throughout the Year

As long as your Improve Analytics subscription is current, Nuventive will provide ongoing support and at least two scheduled touch point webinars each year. We want to make

### Features Responsive, Touch-Enabled Design

Whether your team is using Nuventive Improve on computers or mobile devices, users will enjoy a high-quality, easy-to-navigate, intuitive user experience.

### Supports Baldrige Program

While most academic communities will not go through the rigorous Baldrige performance excellence program, it's valuable to be able to demonstrate performance at such a high level. Nuventive Improve is built to support institutions seeking this type of performance excellence.

### Allows Different Storage Options

The choice is yours — Nuventive can securely host your data in our cloud and manage updates or your IT staff can update and manage the database on your own campus.

sure the solution continues to provide the most accurate and useful information for your institution.

### Provides Real-Time Reporting

Know what's happening now with up-to-date evidence of achievement. Nuventive Improve offers more than 30 standard reports, plus a powerful ad hoc reporting tool.

### Includes Curriculum Mapping

Link your curricula to desired learning outcomes with just a few clicks.

### Nuventive Improve Analytics Benefits

- + Display the planning process status for each functional area at the institution
- + Identify "wins" and "problems" in the planning and assessment process
- + Make sharing with executive management and others easy
- + Answer the questions the planning and assessment coordinators are asked daily: Where are we?, Who is falling behind?, Do we have good examples on campus?
