

# The Nuventive Improvement Platform

Turn your plans into progress

To achieve their purpose, your institution's strategic initiatives can't live in silos. They need to be connected to your analytics and reporting systems, so everyone can map their progress and see what moves the needle on your strategic goals. With Nuventive, relevant information sits next to your plan — in the same screen — so you can drill down to understand your progress with live or snapshot-in-time information.

Because people will use the best information to make decisions, your initiatives will result in progress. You'll accomplish your mission. And that makes reporting on results a whole lot easier.

## Achieve data-informed improvement with Nuventive

Institutions with a culture of data-informed improvement can achieve more, improve faster and adapt better. To improve and transform any aspect of your institution, Nuventive helps you:

- + **Base decisions on the best information** — Give faculty and staff a continuous feedback loop and a platform for delivering results.
- + **Unite the plan and the data in a single screen** — Leverage your existing technology investments to display live reports from your BI tools, online resources, and static reports and documents, all without leaving Nuventive.

## Drive planning and progress for any improvement initiative

- + Strategic planning
- + Student success
- + Program review
- + Diversity, equity, and inclusion
- + Learning outcomes
- + Administrative outcomes
- + Accreditation
- + General education
- + Sustainability

## Make the most of your investments in analytics and reporting:

Tailored to support a culture of data-informed improvement in higher education, Nuventive uniquely brings together your information and narrative in an actionable way. The Nuventive Improvement Platform's Improve Analytics feature visualizes and presents the information in easily understood Microsoft Power BI reports.

Built and hosted on Microsoft® Azure, and based on the highest standards of interoperability and integration, the Nuventive Improvement Platform:

- + Provides access to meaningful information from your existing sources – ERP, SIS, BI, specialized reporting, and more – into a single, online environment and ties it directly to desired outcomes.
- + Connects to popular learning management systems.

## Do you have a culture of data-informed improvement?

To make it easy for you to operationalize any improvement or transformation initiative, Nuventive:

- + Shows you where you are in relation to your plans, integrates them, and fosters institutional alignment, enabling you to make corrections in real time.
- + Helps you make the best use of available information in the context of your institution's work, regardless of its source.
- + Enables you to surface and disseminate effective practices.
- + Builds measurement and the opportunity to adjust plans into every step of the process.
- + Engages stakeholders from across the institution so they can use information to inform effective action.
