Responsibilities include:

- Design and implement creative solutions to complex problems for microservices, cloud-based web application
- (Senior level candidates) Accurately estimate effort, mentor junior developers and drive design/development in an Agile process

Desired Skills, Experience and Knowledge

- Web development expertise
- Competency in:
 - JavaScript
 - NodeJS
 - C#
 - HTML/CSS
 - Azure
 - React
 - GraphQL
 - REST
 - SQL
 - Git
 - Azure DevOps
 - Agile
- Ability to work well both independently and with a team
- Ability to learn new things as needed
- Comfortable working with remote team members.

About Nuventive

Nuventive enables higher education institutions to turn their plans into progress through the better use of information. Its cloud-based platform-as-a-service brings business process and information together to support any improvement initiative, including overall strategy, accreditation, student success, learning outcomes, general education, sustainability, administrative outcomes, program review, and diversity. Nuventive is headquartered in Pittsburgh, Pennsylvania with distribution in North America, Europe, and Asia-Pacific regions.

Nuventive's benefits package includes 401K, paid holidays/sick days, and medical insurance. Nuventive is an Equal Opportunity Employer. Minorities, women, individuals with disabilities, and veterans are encouraged to apply.
