### **Nuventive Achieves SOC 2 Type II Compliance for the Highest Level of Data Security and Privacy for the Second Year**

*Data-Informed Improvement Software Leader Again Earns Designation from the Gold Standard for Data Security and Compliance Following Independent Audit*

PITTSBURGH, Penn. – April 19, 2023 – [Nuventive](#), a leader in data-informed improvement software for higher education, announced today that it has again achieved System and Organization Controls (SOC 2) Type II compliance, widely regarded as the gold standard for data security.

“This illustrates the effort to which Nuventive is willing to go to protect our clients’ sensitive data,” said Gary M Choban, Nuventive’s senior vice president, chief product officer and security officer. “By engaging an independent firm such as A-LIGN to examine and report on our controls annually, Nuventive demonstrates capacity to help our customers achieve more by effectively using the information resources at hand in their business, while ensuring security and privacy compliance.”

Leading cybersecurity assessment firm A-LIGN validated that Nuventive’s practices and controls meet the Trust Services Principles and Criteria for security, availability, and privacy.

Established by the American Institute of Certified Public Accountants (AICPA), the SOC 2 examination is designed for organizations of any size, regardless of industry and scope, by ensuring the personal assets of their potential and existing customers are protected. SOC 2 reports are recognized globally and affirm that a company’s infrastructure, software, people, data, policies, procedures, and operations have been formally reviewed.

Assisting Nuventive through the process was cybersecurity and data privacy consultancy Zaviant. According to Will Sweeney, Zaviant managing partner, "Nuventive continues to prioritize the importance of data security and privacy within its business operations. They remain steadfast in protecting customer information, and another clean audit opinion is proof of their prolonged excellence in this area."

Nuventive will make the report available to current or potential customers upon execution of a non-disclosure agreement (NDA). Contact [security@nuventive.com](mailto:security@nuventive.com) for more details.

The [Nuventive Improvement Platform](#) helps higher education institutions use information to innovate and continuously advance their most pressing initiatives, from strategic planning to accreditation, learning outcomes, program review, and more.
