Nuventive Achieves SOC 2 Type II Compliance for the Fifth Consecutive Year, Reinforcing Its Commitment to Data Security and Trust

Proven Data Protection Standards Validated by Independent Review

PITTSBURGH, Penn. – February 11, 2026 – [Nuventive](#), the data-informed improvement company™, announced today it has met the stringent requirements of System and Organization Controls (SOC 2) Type II compliance. The successful completion of this year’s independent audit underscores the company’s sustained focus on maintaining secure, reliable systems that clients can depend on.

“Our continued SOC 2 Type II compliance reflects a long-term commitment to security as a core part of our platform,” said Gary M. Choban, Nuventive’s Senior Vice President, Chief Product Officer, and Security Officer. “As we evolve and expand our capabilities, protecting customer data remains central to everything we do, enabling institutions to focus on improvement with confidence.”

The SOC 2 audit was conducted by A-LIGN, the leading provider in cybersecurity compliance trusted by more than 4,000 global organizations to help mitigate cybersecurity risks.

Established by the American Institute of Certified Public Accountants (AICPA), the SOC 2 examination is designed for organizations of any size, regardless of industry and scope, to ensure the personal assets of their potential and existing customers are protected. SOC 2 reports are recognized globally and affirm that a company’s infrastructure, software, people, data, policies, procedures and operations have been formally reviewed.

“Congratulations to Nuventive for completing their SOC 2 audit, a widely recognized signal of trust and security,” said Steve Simmons, Chief Operating Officer at A-LIGN. “It’s great to work with organizations like Nuventive, who understand the value of expertise in driving an efficient audit and the importance of a high-quality final report.”

Assisting Nuventive through the process was cybersecurity and data privacy consultancy Zaviant.

“Nuventive continues to demonstrate an exceptional commitment to data security and privacy. Protecting customer information isn’t just a responsibility; it’s a core principle

embedded in every aspect of their organization,” said Matthew B. Davis, Senior Manager of Advisory & Consulting Services at Zaviant.

Organizations interested in reviewing Nuventive’s SOC 2 Type II report can request access by signing a non-disclosure agreement (NDA). For more details, contact security@nuventive.com.
